

In Step Together

At Hope Pregnancy Clinic our mission remains clear and unwavering: **to empower women to make healthy, life-affirming decisions and to introduce them to the life-changing hope of Jesus Christ.**

As you already know, we are in an extraordinary season. We are seeing **record numbers** of patients walk through our doors—women and families searching for hope, answers, resources, and compassionate care during some of the most challenging moments of their lives. **The need in our community is real, and it continues to grow.** And because of that, we have stepped forward in faith.

You've heard about our building campaign, In Step Together, and now you're watching it take shape.

Since breaking ground in September, progress has been steady and encouraging. The site preparation and foundation have been

completed, and the framing is rising day by day. What was once vision and prayer on paper is now becoming a physical space that reflects the heart of this ministry.

In Step Together

This 10,600-square-foot addition will bring all of our clinic and parenting mentoring resources together under one roof, removing barriers and creating a more welcoming, accessible experience for those we serve. This campaign will:

- * **double our patient rooms and ultrasound machines—from two to four—enabling us to provide attentive, high-quality care to more women when they need it most.**
- * **double workspace for our nurses and volunteers—from four to eight—equipping our team to serve more effectively.**
- * **expand space for parenting education mentoring and classes**
- * **allow us to grow both our staff and volunteer teams for the future.**

While the building itself is exciting, what excites us even more is what it represents—a **greater capacity to protect life, strengthen families, and share the hope of Jesus Christ.** This expansion is not just about space; it is about impact. It is about creating a place where lives will be saved, hearts will be transformed, and hope will continue to shine brightly in our community.
